

Print SE# Books Open Numbers

PROGRAM NAME: FEDPRNT4

MENU OPTION TITLE: Print SE# Books Open Numbers

MAIN MODULE: SERIAL# REPORTS

HELP KEY ACTIVE: YES

PROGRAM OVERVIEW

This program generates a chronological printed report of all unshipped entries within a specific serial number book system.. You can select a range of serial numbers within a specific book. It includes: Manufacture, model, serial #, Model/Description, caliber, received information and sold/ship to information. This database is an independent file that is required for compliance with BATF regulations. The report pulls information from the database {FEDBOOK.DAT} only, and will need condensed print because of the detail.
