Parts Flagged As Master

PROGRAM NAME: INMONHND
MENU OPTION TITLE: Parts Flagged As Master
MAIN MODULE: PARTS/RPTS GENERAL
HELP KEY ACTIVE: YES

PROGRAM OVERVIEW

This is a report that shows {WHOLESALE}, {DEALER}, and {RETAIL} pricing for finished parts on hand. This is handy because it only prints "finished on hand" quantities. This way you don't have a complete inventory report to scan through to find pertinent information. As your inventory quantities increase, the ability of this report becomes quite obvious. Parts flagged with <M> in the inventory master field {MASTER/ SUBASSEMBLY} will show on this report.

PROGRAM OPERATION

Print to <S>creen or <P>rinter
