Compare Tag Counts to Parts

PROGRAM NAME: TAGTEMP
MENU OPTION TITLE: Compare Tag Counts to Parts
MAIN MODULE: YEAREDN INV. REPORTS
HELP KEY ACTIVE: NO

PROGRAM OVERVIEW

This report will create a comparative list of Year end inventory to perpetual inventory count, and may change as additional tags are added and/or revised. This report can be used to catch unusually high or low counts when compared to the perpetual inventory count. This will then allow you to create a list of inventory items that may need to be recounted for accuracy purposes.

PROGRAM OPERATION

PRINT PARTS ONLY IF A TAG WAS ENTERED (Y/N)?

READY TO BEGIN REPORT (Y/N)?
