

Notes Codes File Maintenance

PROGRAM NAME: WOMNGUT

MENU OPTION TITLE: Note Codes File Maintenance

MAIN MODULE: WORK ORDERS

HELP KEY ACTIVE: NO

PROGRAM OVERVIEW

This program is used to create note codes that are needed when setting up operations on a Shop Floor Routing Template. These note codes are used to describe the operations that are to be performed by manufacturing personnel.

NOTE: When you run the actual operations in {WOOPGUT}, it will automatically create or delete the note in this file.

PROGRAM OPERATION

NOTE CODE: Enter a 3 digit code that is used to uniquely identify each note code. If you need to make changes to a note code that has previously been entered, simply enter the note code number and press ENTER. The information pertaining to the note code will be automatically displayed. Press ENTER to move the cursor to the field you wish to change, make the change, then press ENTER until the screen clears.

Require Edit of text: Enter either <Y> or <N> in this field to determine if you can change the note in the routing master.

Print flag: Enter either <Y> or <N> in this field to determine whether the NOTE TEXT is to be displayed when the Shop Floor Routing master is printed.

NOTE TEXT: This field is used to provide manufacturing personnel with a description of the operation that is to be performed on the Shop Floor Routing.
